I.D. Systems Receives Order from Nissan for Wireless Industrial Fleet Management System

Hackensack, NJ, March 20, 2006 –

I.D. Systems, Inc. (NASDAQ: IDSY) today announced that it has received a purchase order from Nissan North America, Inc., a subsidiary of Tokyo-based Nissan Motor Co., Ltd. (TOKSE: 7201.T; NasdaqSC: NSANY), to deploy I.D. Systems' Wireless Asset Net™ vehicle management system on a fleet of material handling equipment at Nissan's automotive manufacturing plant in Smyrna, Tennessee.

The Wireless Asset Net system, which utilizes radio frequency identification, or RFID, technology, addresses the needs of organizations to control, track, monitor and analyze their assets. The system enables customers to reduce operating costs and capital expenditures and comply with certain safety regulations by accurately and reliably measuring and controlling fleet activity. The system also enhances security at industrial facilities and areas of critical infrastructure, such as airports, by controlling access to, and restricting the use of, vehicles and equipment.

I.D. Systems, Inc. is a leading provider of wireless solutions for managing and securing high-value enterprise assets. These assets include industrial vehicles, such as forklifts and airport ground support equipment, and rental vehicles. For more information about I.D. Systems, visit www.id-systems.com.
